# Abstracts & Biography

.

**Title: Db2 V12 for z/OS Migration Planning and Very Early Experiences**

**Abstract:**

This session will cover: share lessons learned, surprises, pitfalls; provide hints and tips; address some myths; provide additional planning information; provide usage guidelines and positioning on new enhancements; Help customers migrate as fast as possible, but safely.

**Biography:**
**John Campbell is an IBM Distinguished Engineer reporting to the VP of IBM zAnalytics Development at the IBM Silicon Valley Lab and is the technical leader of the world wide DB2 for z/OS Development SWAT Team. He has extensive experience of DB2 for z/OS in terms of systems, database and applications design. He specializes in design for high performance and data sharing. He is one of IBM's foremost authorities for implementing high end database / transaction processing applications.**

**Title: Db2 for z/OS and FlashCopy: Practical Use Cases and Customer Experience**

**Abstract:**
With the explosion of data volumes today, businesses are looking for ways to copy huge volumes of data very quickly – from seconds to minutes – with minimal disruption to the running of applications. In this presentation, you will hear about practical use cases for IBM FlashCopy technology in a Db2 for z/OS environment including non-disruptive data integrity checks, FlashCopy image copies allowing for instant restore, SHRLEVEL(CHANGE) consistent image copy backups, system-level backup and recovery. We will provide many hints and tips on how to set up your environment, share lessons learned from customer experience and address common pitfalls.

**Biography:**
Florence Dubois is an IBM Executive IT Specialist and a member of the Db2 for z/OS Development SWAT team. In this role, she consults for worldwide customers on a variety of technical topics, including implementation and migration, design for high performance and availability, performance and tuning, system health checks, disaster recovery. Florence presents regularly at conferences and has co-authored several IBM Redbooks publications.
